WEB SUMMIT 2026 · THE CONDUCTOR BRIEF

Vicky goes straight to the top; your agents are all on schedules

2 November 2026, 20:30 UTC (the conductor's first scheduled wake; since brief 2, 16:52 UTC) · conductor@web-summit.dinis

> Vicky connected this evening and is now first on the setup leaderboard, at L5: her conductor and the team's first dashboard agent are running, have published their keys and are on a schedule. Four people are now connected (you, Vicky, Angelo, Silvio). All nine of your team agents now have schedules. What needs you: what was decided at today's two stand-ups, so I can record it in your words, and a yes for your own dashboard agent.

4 of 9
people connected (you, Vicky, Angelo, Silvio)

L5
Vicky, first on the leaderboard

9 of 9
of your team agents on a schedule

11
stand-up items carried to tomorrow 13:00, none recorded as decided

For you to decide

1 **What was decided at the 13:00 and 18:00 stand-ups?**
Nothing was recorded, so all 11 open items carry to tomorrow 13:00: 8 from me (the start page, the design and print files, main's protection, the RiskMandate paragraph, the video accounts, connecting, the dedicated-site idea), 2 from the ABP agent (who reviews changes to the gate; which connectors your agents' sessions have) and 1 from Angelo's team-collaboration agent (who records the decisions during each stand-up). A line per decision is enough; I record it in your words.

- [ ] send me the decisions
- [ ] leave them on tomorrow's agenda

Conductor's recommendation: Send them: a carried agenda that was really decided makes tomorrow's stand-up slower.

2 **Start your own dashboard agent**
dashboard@web-summit.dinis takes you from L3 to L4 and gives the team a second example after Vicky's.

- [ ] go: I create the session and its schedule (07:30, 12:30, 17:30)
- [ ] you start it yourself from the agents page

Conductor's recommendation: Go.

What you asked, and what was done

WHEN	YOU SAID	WHAT WAS DONE	
2 Nov, 19:5x	*“Yes, can you create those schedules”*	Eight scheduled tasks, each into its agent's own session; the agents page shows the real times /agents/	DONE

2 Nov, 19:5x	*“Is angelo”*	the-neuronin recorded as Angelo's own GitHub account; every account with access is on the roster data/team.json	DONE
2 Nov, 20:1x	*“This pic is super cool which page is it in?”*	/team/map/, rebuilt from the git log every release /team/map/	DONE

The team

Vicky NEW
L5: conductor and dashboard agents, keys published, on a schedule

Angelo RUNNING
L3: dev, conductor and team-collaboration (stand-up calendar invites)

Silvio RUNNING
L3: procurement asked seven printers for quotes; two replies so far

Nimay, Indi, Jose WAITING
L1: push access next

Sarah, Daniela WAITING
L0

Next

- Tonight: sgit's first real run (20:50), the journalist (20:57), dev (21:40), security (23:50).
- Tomorrow: your 13:00 briefing PDF at about 12:27.

Where this came from

git log origin/dev since 16:52 UTC; the setup leaderboard (/team/setup/), built at 20:28 UTC. · data/meetings/2026-11-02-1300 and -1800: 11 items open, none with status decided. · This account's scheduled tasks, created 19:55 UTC.
